

Dear Fellows,

**It is with much pleasure that we jointly introduce to you the new ANZCA Collection.**

During the 2009 Annual Scientific Meeting a number of Fellows expressed the view that the College should develop a more contemporary and diverse range of high quality exclusive merchandise that could be purchased by Fellows and also used as College gifts.

In order to assess the viability of expanding the range of merchandise offered, College management sought expert retail and marketing advice. Based on this advice, a business case was approved by Council. The business case demonstrated that the project was viable based on limiting the range and ordering sustainable minimum stock levels. If demand for the merchandise is strong we will expand the range of items offered.

The ANZCA Collection that is presented in this brochure features a range of beautiful leather products specially designed for the College. These items feature high quality nappa leather. Nappa leather is full grain leather that is extremely soft and supple making it the most luxurious and desirable leather from which to craft high quality personal goods. The limited-edition pashmina is made from a blend of 75% cashmere and 25% silk woven in India by craftsmen who supply cloth to the very top European design houses.

Chair  
Fellowship Affairs  
Committee

The luxurious tie and bow tie are custom made for the College from 100% woven silk.

The prices for the ANZCA Collection are attractive and are well below those that would be charged for such quality at high end designer retail stores.

You will be able to order items using the enclosed form. Items will be delivered to your specified address normally within three weeks from receipt of the order.

Any profits from the sale of the merchandise will go to support the College's medical research and education programs managed by the ANZCA Foundation.

We hope that you will be excited by the new ANZCA Collection of beautiful, quality items created for our College.

# The ANZCA Collection features a range of beautiful products specially designed for the College
