

Have it all... go regional

Find out why more **Anaesthetists** are moving to **regional Queensland**

Queensland Health
is currently seeking
Anaesthetists to
join our **expanding**
regional facilities

“ I made the move to Regional Queensland because I wanted to give my children a bright future in a safe environment. We love our outdoor life, especially Nippers and sporting activities for the kids.

And work-wise I enjoy working in my Department – the staff are professional, friendly and very supportive.

Queensland Health offers **first-rate training and development opportunities** and with infrastructure such as Telehealth I access education and training sessions and participate in case conferences, peer support sessions with colleagues from all around the State.

I also receive an outstanding professional development allowance and 3.6 weeks leave a year to help me facilitate this.

A regional lifestyle and career offers me all that I need. ”

*Anaesthetist Dr Vanessa Greig
made the move to Bundaberg Hospital*
