## Time

- 78 weeks total training time  
- 69 weeks clinical anaesthesia time across introductory and basic training.  
- A maximum of 19 weeks other clinical time including intensive care medicine across introductory and basic training.  
- A maximum of 16 weeks normal leave over introductory and basic training.

## Cases and procedures

- All basic training cases and procedures completed including those in introductory and basic training.  

### Guidance notes

- Refer to ‘Cases and procedures’ page for a list of completed cases and procedures.  
- Investigate any red indicators against incomplete volume of practice (VOP) requirements.

It is expected that trainees make some progress toward the VOP requirements for the specialised study units and completion of these can be viewed on the ‘Age’ and ‘Surgical cases and procedures’ targets screens by clicking on the corresponding links from the ‘Trainee summary’ page.

## Scholar role activities (SRA)

### For trainees who have commenced before the start of 2017 HEY and are completing option A

**Option A activity:**  
Trainee completed Critically appraise a paper activity

### Guidance notes

- Refer to ‘Scholar role activities’ section of the courses and events page.  
- Ensure the activity has been entered and confirmed by a supervisor of training.

### For trainees who have commenced before start of 2017 HEY and are completing option B

**Option B activity:**  
Check that trainee can demonstrate commencement of an activity, enrolment in a course or have a clear plan for completion of Option B by the end of provisional fellowship training.

### For trainees who have commenced on or after the start of 2017 HEY

- Trainee completed any two of the five required SRAs  

### Guidance notes

- Refer to ‘Scholar role activities’ section of the courses and events page.  
- Ensure that two activities have been entered and confirmed by a supervisor of training.

## Workplace-based assessments (WBA)

- DOPS  
- Mini-CEX  
- CbD  
- MsF

It is expected that trainees make progress toward the WBA requirements for the specialised study units and completion of these can be viewed on the SSU WBA targets screen by clicking on the ‘WBA specialised study units summary (details)’ link from the trainee summary page.

## Examination

- Primary Examination

### Guidance notes

- Refer to ‘Exams’ section of courses and events page.

<tr>
<th>Clinical placement reviews (CPR)</th>
</tr>
</thead>
</table>
| Planning CPR at start of each placement | • Refer to ‘Clinical placement review’ page for a list of completed reviews.  
• For placements longer than 26 weeks an interim CPR must be undertaken every 26 weeks  
• All required CPRs must have a status of ‘Completed’ before the trainee can progress to advanced training. |
| Interim CPR as required |
| Feedback CPR at end of each placement |
