Applications are invited for the position of Postgraduate Fellow in Education in Anaesthesia and Intensive Care in the Department of Anaesthesia, Intensive Care & Pain Management at John Hunter Hospital.

This postgraduate fellow position provides a unique opportunity to pursue your interest in medical education, including the use of simulation as a teaching tool. The goal of the postgraduate fellowship is to develop medical educators who are able to independently manage key components of teaching programs including simulation-based training. You will be provided with mentorship and graded workplace learning as part of an enthusiastic group of clinician educators. You will have a major role in undergraduate education in the discipline of Anaesthesia and Intensive Care for the Joint Medical Program of the Universities of Newcastle and New England and you will be closely involved with the HNE Simulation Centre. In addition, there is an opportunity to maintain your clinical skills by participating in the delivery of care in either Anaesthesia or Intensive Care. There is also a commitment to a 1:10 on call roster.

The Department of Anaesthesia and Intensive Care and the HNE Simulation Centre work closely to deliver education and training to more than 3000 participants, ranging from students to senior clinicians, per annum. The HNE Simulation Centre is a state of the art facility with a reputation for delivering high quality programs. The Joint Medical Program of the Universities of Newcastle and New England has an outstanding reputation for its Year 5 anaesthesia and intensive care education programs. There are 120 students rotating through the Department annually. In addition, a variety of student electives are offered including a popular Medical Education & Simulation elective in which the Education Fellow plays a vital supervisory role.

There will be opportunities to participate in research in education, simulation, clinical or basic science. In addition to hospital based research the department has collaborations with the University for basic science research in physiology and pharmacology, and with the Hunter Medical Research Institute. The John Hunter Hospital is a major teaching hospital and is the primary tertiary referral centre for trauma in northern NSW, covering all surgical specialties including cardiothoracic. It includes John Hunter Children’s Hospital, one of the three tertiary paediatric hospitals in the state. The busy Intensive Care Unit provides Adult and Paediatric Intensive Care Services and supports a Medical Retrieval Service.

**Essential Criteria:**
- Medical Degree registrable with the NSW Medical Board
- Fellowship of ANZCA and/or CICM or other specialist recognition as provided for in the Salaried Medical Practitioners (State) Award or the Health Insurance Act 1973
- Demonstrated experience in Anaesthesia and/or Intensive Care
- Excellent organisational, communication and interpersonal skills and ability to work well as a member of a multidisciplinary team
- Experience and commitment to clinical improvement programs.
- Demonstrated record or interest in education research
- Commitment to education of highest quality and ability to teach undergraduates and postgraduates

**About Newcastle:**
Newcastle is a coastal city and busy port within easy reach of Sydney. The population of the Greater Newcastle Area is 350,000. There are superb surfing beaches and recreational opportunities, and the nearby Hunter Valley is one of Australia’s premier wine producing districts.

Newcastle is a great place to live and work. Enjoy living with lake or ocean side views, in new suburban estates, on small or large rural properties, mountain cabins or inner city semi-detached and apartment living at affordable prices. Newcastle is less than 30 minutes to Sydney (by air) from Australia’s fastest growing regional airport.
