

Staff Specialist or VMO Anaesthetist

Armidale Hospital and Armidale Private Hospital, Armidale NSW

An exceptional opportunity!

You will provide General Anaesthetic services, emergency airway management, ventilation and acute pain service to patients of Armidale Hospital, including participation in after-hours on-call/call back rosters for emergency surgery and airway management. The provision of inpatient and ED consultations as required, and support and supervision to Junior Medical Officers is also part of this role. You will be involved in the provision of Anaesthetic services to both public and private patients of Armidale Hospital and will be encouraged to also service patients at Armidale Private Hospital. Armidale Hospital is also a centre for General Practice Anaesthetics training and provides ongoing education to the successful Joint Medical Program, Bachelor of Medicine degree, University of New England. This provides a multitude of opportunities to become involved in teaching and research projects.

Location sensation!

Conveniently located half way between Sydney and Brisbane and surrounded by one of NSW most spectacular National Parks and scenic tourist routes, Armidale is a thriving city renowned for heritage structures, great fishing spots, recreational locations, educational facilities and its friendly multicultural community. Armidale has some of the most beautiful heritage buildings in NSW, including the iconic Armidale Cathedral with accompanying structures, located in the central part of the city amongst beautiful public parkland. Armidale offers the choice of public or private education, offering some of the best private schooling facilities and education available in the state. The University of New England, also located in Armidale is considered one of the leading Universities in Australia and provides excellent opportunity for ongoing tertiary education and academic pursuit.

Armidale Hospital has 99 beds including surgical ward, medical ward, paediatric ward, obstetric unit, day surgery unit, rehabilitation ward, psychiatric unit and intensive care unit and supports a wide range of specialist surgical services, including General Surgery, Orthopaedics, Ophthalmology, Obstetrics and Gynaecology and Urology as well as having specialists in General Medicine, Anaesthetics, Geriatrics, Paediatrics, Psychiatry and Radiology. Armidale Hospital is a teaching hospital for the successful Joint Medical Program, a partnership between the University of Newcastle and the University of New England. This provides outstanding opportunities for Senior Medical Staff to become involved in teaching undergraduate medical students.

The Ramsay Health Care-operated Armidale Private Hospital is located on the hospital grounds. As a rural medical/surgical private hospital it includes 32 ward beds, a modern Day Surgery Unit, and operating theatres equipped to undertake major Surgical procedures.
