

## CLINICAL LEADER CRITICAL CARE – TASMANIA

**Are you looking for a challenge? This is an exciting opportunity to build a new service across 2 acute hospitals in Tasmania.**

- **A unique opportunity to take on your first leadership role**
- **Perfectly positioned regional location with surf and sand lapping at the door**
- **No previous management experience required**

This is a rare opportunity to put your knowledge, flair and business acumen to the test. You will be starting up a brand new service with responsibility for ICU and HDU units at 2 acute hospitals. Your first challenge will be to review the existing service and the service requirements and decide on the ideal operating model. You will then be responsible for devising and executing an implementation. You will be supported by an enthusiastic team who are already working within the hospital and keen to come on board with the new service.

The ICU is an eight bed unit with beds dedicated to Coronary Care, Intensive Care, Surgical High Dependency and Medical High Dependency. It functions as a L2 ICU with ventilatory, circulatory and renal support. The department is currently appropriately staffed with physicians, surgeons, and anaesthetists and has junior and registrar support. The HDU is an equipped four bed unit staffed by generalist specialist clinicians.

This role will suit an ambitious doctor with a background in ICU, Anaesthetics or a Physician with Respiratory/HDU experience and interests. No previous management experience required!

The area health service covers a 160 bed accredited teaching hospital that is co-located with a 70 bed private facility and a 130 bed community hospital, with an attached rural clinical school. The service provides high quality health care and specialist services to a catchment area of 100,000 people.

Tasmania's coast is where you can forget the rat race and join the human race. The location is renowned for its close knit and supportive communities, exceptional lifestyle opportunities and superb family facilities. House prices are typically less than a third of the cost of Sydney or Melbourne giving you the opportunity to live in your dream home.

In your spare time you can unwind by taking a walk along the beachside boardwalk or why not explore the rugged coastline with beautiful beaches, resort towns and many parks that are nearby. Enjoy walking in the rainforest and let the dramatic waterfalls take your breath away or have a family picnic near the river where you might be able to catch a glimpse of a platypus.

With Tasmania's pristine wilderness on your doorstep and Melbourne only an hour's flight away, you will get to experience a work/life balance that will be the envy of all of your friends. This is a great opportunity to be part of a young, cohesive and ambitious network. You will be instrumental in creating this service from scratch and your contribution will be rewarded with the recognition and professional satisfaction you deserve.
