

Fellows - Anaesthesia and Pain Medicine, SAPS, CM Health

The Department of Anaesthesia, Pain, and Perioperative Medicine, Counties Manukau Health, (Auckland) is pleased to invite applications for a General Fellowship position for the second half of 2021 – dates to be confirmed

Middlemore Hospital is a busy 1000 bed facility, servicing a population of 750,000 comprising some of New Zealand's most diverse communities.

As a tertiary referral centre for major burns, orthopaedics, plastics (including hands), maxillofacial and general surgery, we are one of the busiest surgical centres in Australasia. A full complement of surgical subspecialties, with the exception of Cardiothoracic and Neurosurgery are represented. Obstetric services provide support for approximately 7000 deliveries, including a significant proportion of high complexity cases, per annum.

Our department consists of over 80 Specialist Anaesthetists (Anaesthesiologists) working over two clinical sites comprising 26 Operating Rooms. Rostering also includes provision of anaesthesia services to the radiology suite and national burns centre, in addition to leading acute pain rounds and preoperative assessment clinics.

Whilst large, it is a cohesive, collegial department with fantastic learning opportunities provided by enthusiastic, innovative and dedicated clinicians with a solid team-oriented culture.

We are able to offer a wide range of diversity and complexity, and you will be continually stimulated and challenged in a supportive environment. This will enable you to attain your required learning objectives. Our clinical positions are ideal for provisional fellows or those with recent FANZCA admittance wishing to hone advanced clinical skills, and work towards gaining greater confidence in transitioning to independent consultant-led practice.

Our department supports 7 clinical fellows, four of which have subspecialty interests. The remaining 3 general positions can be tailored to individual areas of clinical interest where feasible.

In addition to clinical rostering, sessions will be allocated for non-clinical and administrative activities. All fellows will be expected to contribute to departmental audit / research / educational advancement or quality improvement measures over the term of employment.

The clinical anaesthesia fellows work within a 1:7 roster for after-hours call.

Minimum Requirements:

- Applicants should hold, or be eligible for, registration as a medical practitioner with the Medical Council of New Zealand (MCNZ).
- For ANZCA registered trainees applying for clinical anaesthesia fellowship positions, applications will only be accepted for those who are in their Provisional Fellow Year (PFY), or eligible to enter PF year at date of commencement.
- Applicants must have completed all Advanced Training requirements at commencement date unless specific College exemption is held. The CV provided should clearly document compliance with this requirement, and please include any supporting evidence from the Training Portfolio record with your application
- For non ANZCA applicants, an equivalent level of experience in clinical anaesthesia will be considered on a case by case basis. Further details can be provided on request.

Further information regarding our Fellowships can be found at <https://countiesmanukau.health.nz/our-services/department-of-anaesthesia-pain-and-perioperative-medicine>
