

ART OF ANAESTHESIA

Together again

8-9 October 2022
Hotel Realm, Barton, ACT

Welcome to Ngunnawal Country

On behalf of the ACT Regional Committees of ANZCA and the ASA, we warmly invite you to the Art of Anaesthesia meeting to be held in beautiful Canberra on Saturday 8 and Sunday 9 October 2022.

The organising team is very excited to host this face-to-face meeting after a two-year hiatus. This year, the meeting will be held at Hotel Realm, a premier facility in the heart of Canberra. Walking distance to the National Gallery of Australia, the National Portrait Gallery, Questacon, the National Library and the Kingston Foreshore, this is the ideal venue to catch up with old friends and meet new colleagues.

The program is packed with outstanding speakers from across Australia, as well as several local experts and thought leaders. We are joined by Professor Bernhard Riedel from the Peter McCallum Cancer Centre, Professor Robert Sanders from the University of Sydney and Professor Imogen Mitchell from the Australian National University. Professor Riedel will open the meeting with an important update in onco-anaesthesia, while Professor Sanders will explore anaesthesia and consciousness, followed by an update on postoperative delirium. Professor Mitchell will provide her insights into death and dying in critical care. We are also thrilled to host multiple interstate speakers, including Associate Professor Stefan Dieleman, Dr Jo Irons, Associate Professor Forbes McGain, Dr Jessie Ly, Associate Professor Adam Hastings and Dr Dani Goh, as well as a range of local speakers.

The program is intentionally broad and aims to provoke thought and discussion, with sessions on perioperative medicine and outcomes, neuroanaesthesia and neuroscience, environmental issues, health economics and gender surgery. The academic program on the Saturday will finish by 4pm, to allow delegates time for wine, nibbles and a chat in Bar Ostani, downstairs in the Hotel Realm.

On Sunday 9 October the program will feature several hands-on workshops, including Anaphylaxis Management and Major Haemorrhage workshops, both of which fulfil the Emergency Response Activity CPD requirements for ANZCA, as well as a practical focused Transthoracic Echocardiogram (TTE) workshop.

While in Canberra, why not attend the international exhibition "Rauschenberg and Johns" at the National Gallery, or the moving National Photographic Portrait Prize at the National Portrait Gallery next door. Alternatively, just enjoy spring in the beautiful outdoors of our nation's capital.

Dr Bibhuti Thakur
Convenor

Dr Adam Eslick
Co-Convenor

Program

Saturday 8 October 2022

7-7.30am	Registration	
8-8.15am	Opening and Welcome	<i>Dr Bibhuti Thakur and Dr Adam Eslick Co-Convenors</i>
Session 1 (Chair: Dr Manasi Rai)
