

2024 NSW ACE Winter Meeting

ANAESTHETIC RICHES: PEARLS & GEMS

Saturday 15 June 2024
Hilton Hotel Sydney

#ACE24NSW

Welcome

As anaesthetists, we have subconscious treasure chests full of pearls of wisdom, gems of knowledge, and tricks of the trade. These important troves of information have developed through years of learning and clinical experience, and we draw on these anaesthetic riches to artfully guide our patients through their anaesthesia journey. We hope this year's NSW ACE Winter meeting is an opportunity to top up your own personal treasure chest full of pearls and gems of anaesthetic wisdom.

We are fortunate to have a number of highly regarded speakers to share their expertise with us this year. The program has something for everyone, featuring updates in perioperative medicine, allergy, newborn resuscitation, and environmental responsibility. Anaesthesia for day-case joint replacement is featured in two complementary workshops, and we are also fortunate to hear from Associate Professor Susie Lord, pain specialist and First Nations advocate, and Dr Gareth Andrews speaking about his challenging expedition to the South Pole, as well as human factors expert, paramedic and Qantas pilot, Captain Sean Golding. There are also a number of opportunities for emergency response continuing professional development activities.

We hope you enjoy the meeting and leave richer for having attended.

Dr Natalie Purcell and Dr Sharon Tivey
Meeting Co-convenors

ANAESTHETIC RICHES: PEARLS & GEMS
