

Application for temporary additional campus accreditation as a training site for ANZCA vocational training

This form is valid for 2020 only in response to COVID-19

The requirements for additional campus accreditation for the 2020 HEY are:

- The site must hold ACHS (Australia) or HealthCert (NZ) accreditation.
- Trainees must be indemnified for work performed at the site.
- Trainees must be supervised at all times at the site by acceptable supervisors (as per 2.5.3 ANZCA Handbook for Training) who work at the ANZCA accredited site.
 - Trainees in Introductory Training must be supervised at Level 1 supervision until completion of IAAC.
 - After completion of IAAC, trainees may be supervised at levels 1, 2 or 3 depending on case and patient complexity, as well as trainee progression.
 - There will be no level 4 supervision at the additional campus, including for those in Provisional Fellowship Training.
- There is no restriction on maximum time spent at the additional campus provided supervision requirements are met.

Time spent at the additional campus will contribute to the maximum allowable training time at the main accredited site.

Depending on the nature of the COVID-19 pandemic, this temporary change to accreditation standard may be extended or shortened.
